

Great family home!

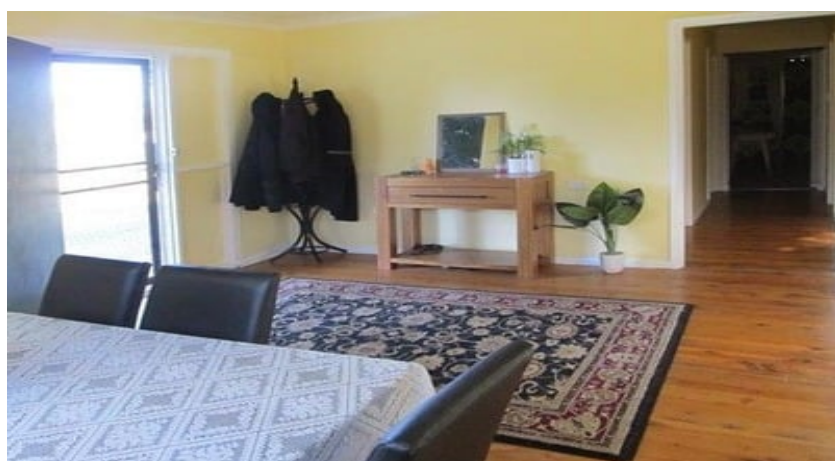

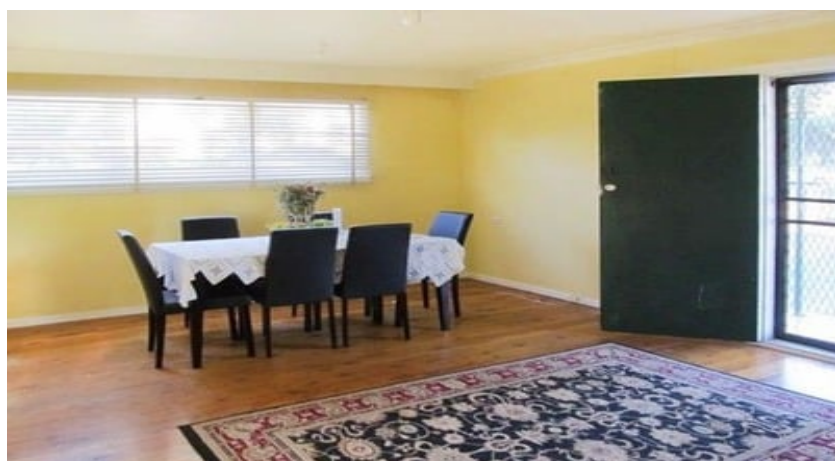

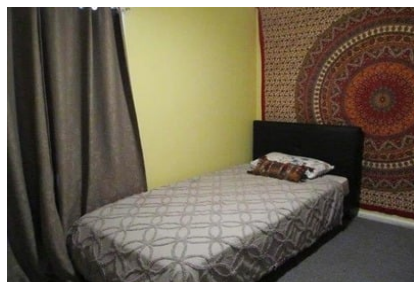

Price : SOLD

4 1 2

Come inside and check out this four bedroom fibro home, from the outside you will think it can't possibly be four bedroom but it is, three bedrooms are all carpeted one room with built in's and the other one with floor boards.

The home consists of a tidy modern kitchen with a four burner electric stove and Lino floor that flows through out the lounge room area as well. The lounge room is very spacious and equipped with a split system. Bathroom and laundry both have tiled floor, with the bathroom featuring a very large shower, toilet, vanity and heating and fan light.

Out the back the home has a covered in concrete rear patio and BBQ area as well as concrete floor garden shed. The home has a very secure fence all around with also a two car carport. This would make a great family home and an inspection is highly recommended.
