## COMMENTARY

It was the last sale before a short 1 week recess with the expected national offering to be around 50,000 bales. The actual offering fell almost 5,500 bales short of this figure. The Northern region sales were conducted in the sheep and wool pavilion at Sydney's Royal Easter Show, offering the industry the opportunity to connect with a widespread audience. The first day of sales witnessed little movement with individual micron price guides ranging from plus 7 cents to minus 13 cents. On the final day of sales prices dipped and continued to lose ground as the sale progressed resulting in an 11 cent fall in the Northern indicator for the week. Crossbreds and Cardings were largely unchanged as were the broader Merino types. 40,950 bales were sold nationally for the week with a passed in rate of $7.8 \%$. Major buyers included Tianya, PJ Morris and Techwool. The first sale back after the recess is currently rostered for 47,000 bales, which would be the largest weekly offering since January. Historically smaller weekly offerings should follow over the April to June period. We wish you all a safe and happy Easter.

## Next Week's Sale

Sales are now in a one-week recess and recommence the week of the $8^{\text {th }}$ of April. Early estimates indicate a national offering of more than 47,000 bales is expected upon resumption.
